Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group II and the species including the rotation drum sticking body, claims 5, 6, and 16, in Paper No. 5 is acknowledged.
2. Claims 1-4 and 7-15 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention or species, there being no allowable generic or linking claim. Election was made without traverse in Paper No. 5.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 5, 6, and 16 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a new matter rejection.

It is not clear where there is support in the original disclosure passages cited by applicants for the addition to claim 5 that the forward movement of the sticking surface is at a pitch "to arrange said ply cord substantially parallel to each other": applicants are perhaps attempting to describe the configuration in Figures 8, 11, and 12, however in these figures *discrete lengths* of the at least one ply cord supplied from the supply head are arranged substantially parallel to each other.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit 1733

6. Claims 5, 6, and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

See paragraph 4 above concerning the indefinite nature of the addition to claim 5 that the forward movement of the sticking surface is at a pitch "to arrange said ply cord substantially parallel to each other". Also, in claims 5 and 6 there is no antecedent basis for "said ply cord" (-- at least one ply cords -- now recited in claim 5 line 3).

Allowable Subject Matter

7. Once the rejections in paragraphs 4 and 6 are overcome, claims 5, 6, and 16 will receive favorable consideration because the prior art of record fails to disclose or suggest applicants' carcass ply producing method including sticking discrete lengths of the at least one ply cord on the sticking surface in combination with the other claimed method steps. It should be noted that species claims 7 and 8 have not been rejoined at this time because generic claim 5 is not yet allowable in substance due to the new matter rejection in paragraph 4 above.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit 1733

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
